

Talahoubri Youcef

Systems Security Engineering Student - ENSTA - Algiers, Algeria

Email: youceftalahoubri@gmail.com | Phone: +213 663 686 297

GitHub: github.com/youcef5546 | github.com/youceftalahoubri-cmyk

Profile

Third-year engineering student specializing in Systems Security, with interests in cybersecurity, networking, clean architecture, databases, and secure software delivery.

Education

Engineering Degree, 3rd Year - ENSTA, Ecole Nationale Supérieure des Technologies Avancées
Specialization: Systems Security

Experience

Institutional Discovery Internship - HDSS / WELLEDGE Technologies LLC - April 2026

- Observed cybersecurity architecture in a petroleum engineering software company.
- Network isolation through LAN-only environments.
- Hardware-bound licensing with cryptographic key exchange.
- Docker-based layered access control, ProGuard obfuscation, hardened Linux systems.

Skills

Programming: C, C++, Java, Kotlin, Jetpack Compose, Python, SQL

Databases: MySQL, PostgreSQL

Concepts: Cybersecurity, Networking, OOP, Clean Architecture, Git, GitHub

Languages

Arabic: Native | English: B2 | French: B2
